PROFILE

I am Future Engineer. I am studying in IEC College of Engineering and Technology. I am giving my best in Engineering College & Society. I am Analyzing the problems of our society and how to solve their problems using Technology. Technology can make daily life easier. I have many ideas that will make life easier and I hope that some day I will be able to implement them.

Science is Discovering the Essential Truths about what Exists in the Universe, Engineering is about creating Things that never Existed.
